

Reply to Office Action of 04/07/2005  
Amendment Dated: July 5, 2005

Appl. No.: 10/614,611  
Attorney Docket No.: CSCO-033/7051

**Amendments to the Specification**

Please replace the paragraph beginning at page 8, line 3, with the following rewritten paragraph:

In addition, AAA server 140 authenticates the subscriber based on information received from SESM 130. AAA server 140 then sends a response containing a list of services (with corresponding service identifiers) the subscriber is permitted to access to SSG 150. AAA server 140 may be implemented based on RFC - 2865, entitled, "Remote Authentication Dial In User Service (RADIUS)", available at www.ietf.org from the Internet Engineering Task Force.

Please replace the paragraph beginning at page 16, line 1, with the following rewritten paragraph:

With respect to sending aggregate counter values, the attributes described in RFC 2866 entitled, "RADIUS Accounting", available at www.ietf.org from the Internet Engineering Task Force, may be used. Similarly, when the service access session(s) are terminated, an accounting stop record containing the final aggregate count and marginal count may be sent.
